SKETCHES OF LITTLE

OLD NEW YORK
BY O. O. McINTYRE

Telegram Bureau: Rooms 121-125 Hotel Majestic, West Seventy-second Street.

NEW YORK, Sept. 13.—Charles Mitchell, of the Mitchell House, Hove, Sussex, England, is in town for a few days stopping at the Woodstock. If this means nothing to you it might be said that Grandfather Charley Mitchell, landlord over an estate of 7,000 acres in the South Downs, is here.

But anyway he is the same Charley Mitchell, who fought John L. Sullivan in the original Madison Square Garden back in 1883. But not one of

his friends recognized him. He weighs 186 pounds—just 43 pounds more than his fighting weight.

He is now an English farmer with a waist line unsuited to his build and he has a general round and benevolent look. Nothing seems quite the same to him. The dapper old crowd—such as are left—are now mostly grayheads or baldheads and some stump around with canes. Some have barrel bodies and some are bent and many broke.

Harry Hills, where he was first introduced in 1883, and Billy McGlory's and John Morrissey's and all the other places have long since faded away.

The Mitchell farms in England are dotted around the South Downs, each with its tenant. There are between sixty and seventy houses on the estate, enough to form a hamlet if they were together in one neighborhood. The agent handles the farms and all Landlord Mitchell does is enjoy a life of luxury.

What to Do for
Itching Skins

There is usually immediate relief for skins itching, burning and disfigured by eczema, ringworm, or similar tormenting skin-trouble, in a warm bath with resinol soap and a simple application of resinol ointment. The soothing, healing resinol medication stops itching at once, and soon clears away all trace of eruption, even in severe and stubborn cases, unless the trouble is due to some serious internal disorder.

You need never hesitate to use resinol. It is a doctor's prescription that has been used by other physicians for twenty years in the treatment of skin affections. It contains absolutely nothing that could injure the tenderest skin. Every druggist sells resinol ointment and resinol soap. Resinol Soap soothes tender skins and helps to make poor complexions clear, fresh and velvety, because it contains this resinol prescription.

It was at Jack's and the hour was 4 a. m. A party of six came in. Five of them were New Yorkers. It was easy to be seen by their tired look, but the sixth was a young country girl—a breath from the West and she was just beginning to be alive. The crowd was noisy and she too entered into the spirit of the place. Finally she stood upon a chair with a glass aloof and shouted:

I'm a wild prairie flower,
Growing wilder every hour,
Nobody ever cultivated me,
I'm wild.

Horticulture Note: An Ohio woman found a gold ring on a live radish and Frank J. Price, the hustling city editor of the Morning Telegraph, says he had a similar experience when he saw a gold ring on a "dead beet."

The Economy

When you come to our store to buy a bill of goods the privilege of credit is a man-to-man straightforward proposition based on confidence. Our plan of liberal credit and the fact that we always sell for less, have done more than any factor to bring success to THE ECONOMY.

of the ancients and tossed them down the prehistoric dust chute.

Fortunately the great great great great granddaddy of Hach Maczlin El Dorado Can nailed some of these teachings and hid them in his garage. They descended through the ages as the property of the Can Can family and after years and years and years New York is to get them verbatim.

In other words, although the occult movement is skidding, the Can family, Hush and Tin, don't blame it on Broadway. Hush, dear reader, the hierophant is speaking: "I am the King of the Toitac. Tomorrow I could ascend the throne. I fear nothing. Aha! I see the Giants tied Boston today."

SCHOOL TEACHER
URGES RIGHT OF
FRANCHISE

Alice Blackwell Points Out Why Women Are Entitled to Vote.

Do West Virginia women school-teachers need the ballot?

This question is answered affirmatively in an article written by Alice Stone Blackwell, of New York, and published by the West Virginia Equal Suffrage Association.

It is the general testimony of educators that the amount of money appropriated for schools is not nearly as large as it ought to be. Both pupils and teachers suffer from overcrowding, and from the necessity of giving each teacher too many pupils for the best educational results, says this writer.

What is the reason for this lack of money for the schools. One reason is that the mothers and the teachers have no votes. Money can be found for purposes in which voters are interested. Frederic C. Howe says:

What Howe Says.
"We spend millions for business purposes, for the promotion of industry. And yet, when any organization goes to the city hall for thousands for school purposes, it is met with the response that the city is too poor. We can spend millions for docks, but not thousands for playgrounds."

In New York there are so many more children of school age than there are accommodations for them that many hundreds are always on half-time. This is an injustice both to the children and to the teacher. The children get only half the time in school to which they are entitled, and the teacher has her strength worn out by having to teach two relays of children daily.

In Philadelphia, in the very year that the superintendent of schools called attention to the fact that there were 20,000 fewer seats in the schools than there were children applying for admission; when thousands could not get in, and when for those who did get in, the accommodations were so poor that children were sitting on broken benches, on boards stretched across the aisles, on window sills and even on the floor—all this was for lack of money.

city fathers voted \$50,000 of public money to entertain the Elks, and \$10,000 more to entertain the Order of Patriotic Sons of America. This \$60,000 came largely from women's taxes, but the women had no vote as to how it should be spent.

Pinched for Money.
Almost everywhere the schools are pinched for money; but in the equal suffrage states this is not the case. The Colorado state superintendent of public instruction said to me:

"Some people in Colorado grumble about the size of the school tax, but our schools have money enough."

--Aackache?
--Rheumatism?
--Run-down?

Those of us who are past middle age are prone to eat too much meat and in consequence deposit lime-salts in the arteries, veins and joints. We often suffer from twinges of rheumatism or lumbago, sometimes from gout, swollen hands or feet. There is no longer the slightest need of this, however, as the new prescription, "Anuric," is bound to give immediate results as it is many times more potent than lithia, in ridding the impoverished blood of its poisons by way of the kidneys. It can be obtained at almost any drug store, by simply asking for "Anuric" for kidneys or backache. It will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine and sleeplessness due to constant arising from bed at night.—Advertisement.

Gen. Irving Hale, of Denver, says: "The extension of suffrage to women has made it easier to secure liberal appropriations for education."

Colorado appropriates more money per capita for education than any of the eastern states, which are so much older and richer.

Of the inadequate amount of money provided for school purposes, the women teachers do not get their fair share. In Massachusetts the average pay of a woman teacher in the public schools is about one-third that of a man. In New York, the richest city in America, the women teachers for years used their "indirect influence" to the utmost before they finally succeeded in securing equal pay for equal work.

President Thomas, of Byrn Mawr College, says: "Experience proves that women as well as men need the ballot to protect them in their special interests and in their power to gain a livelihood. In Philadelphia no woman teacher receives the same salary as men teachers for the same work, and no women, however successful, are appointed to the best-paid and most influential positions in the schools."

What is true of Philadelphia is true in the main of the public schools of most of the United States; but it is not true in the states where women have voted long enough to make their influence felt.

Another Bane.
Another bane of the schools, and especially of the women teachers, is the influence of partisan politics. Mrs. Helen L. Grenfel, who served terms as state superintendent of public instruction for Colorado, and is highly esteemed by educators there, says:

"After twenty years' experience I can say that our school boards are absolutely non-political and party affiliation is never considered in the appointment of teachers. I have never heard of a member of a school board being elected because he belonged to this or that party. Generally both parties are represented on the same board. Sometimes a board principally Democratic is found in a Republican community and vice versa. Our teachers are free to vote according to their own conscience. I have seen or heard of more party politics in school matters in one block in Albany, Buffalo or Philadelphia than on the 103,925 square miles of Colorado soil."
